

Cultural Cup Cake Challenge (The 4 C's)

The enormous variety of foods we have available in Australia today is predominantly due to the country's **multicultural** nature and the demand for traditional ingredients and foods from the wide variety of ethnic groups living here. Many of the foods we consume today were unavailable a decade ago. Consuming multicultural food is now part of our Australian culture. As Australians, unless you come from an Indigenous Australian culture, your cultural heritage would originate from another country. What is your heritage?

Task:

Your task is to develop two cupcakes that are to be decorated using your cultural heritage as the theme.

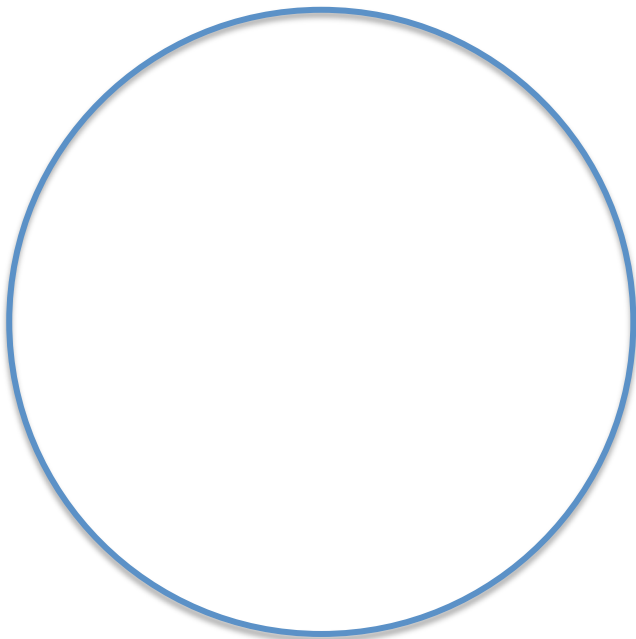

Your 2 cupcakes must represent the following

- Flag colours
- Monument/animal from your culture.

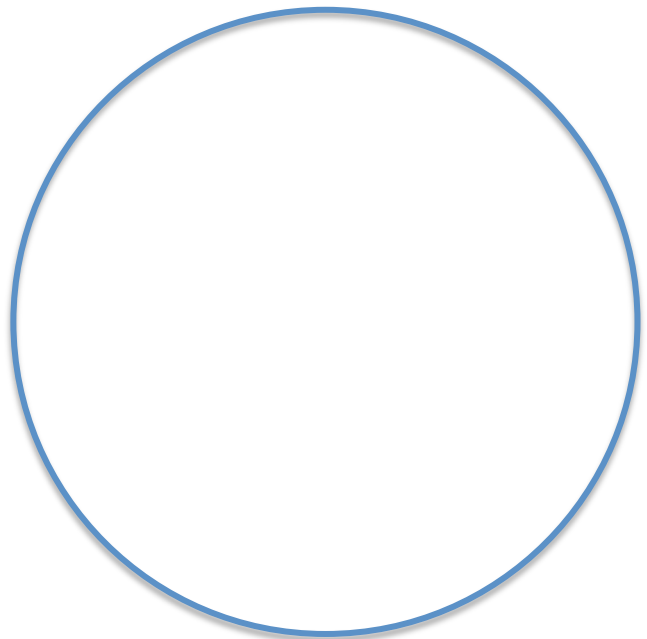

Design brief:

- You are to research and design your two cupcakes below.

Design 1 – Flag

Design 2 Monument / Animal

Evaluate:

On completing your cupcakes, you are to take a photo and evaluate your design. Think about your choices, and reasons for them, the success of your designs, and how easy/hard they were to make.
